SUMMARY

Dynamic Software Engineer with expertise in JavaScript, Typescript, React.js, and Node.js Proven track record in developing, testing, and implementing robust code for high-volume businesses Strong problem-solving skills and commitment to team success through effective time management and adaptability Excels in fast-paced environments, meeting project specifications, and leveraging the latest technologies to drive improvements.

EXPERIENCE

Game Engineer Treplacon Studios - May 2024 - Present, Freelance

I am working as a freelance developer on a small indie development team, all built in Unity using C# and Photon Network packages. My responsibilities include developing core game systems like spawning mechanics and UI/UX logic, physics based calculations and logic along with collaborating closely with fellow developers to debug and optimize performance, and implementing key game features to enhance the player experience. This role has honed my Unity development skills and allowed me to contribute to a highly collaborative and innovative gaming project.

Software Engineer Fischer Homes - July 2022 to April 2024, Erlanger, KY

Developed and delivered product features using JavaScript, Typescript, React.js, Vue.js, and Node.js ensuring adherence to specifications Engineered, tested, and deployed applications, maintaining high coding and quality standards within Agile and Git frameworks Executed unit testing with Jest and automated tests with Selenium to ensure alignment with design requirements Implemented data migration and integration to legacy systems using MicrosoftSQL Server, GraphQL, and Sequelize. Oversaw software system installations and operations on AWS.

IT/Support LiveShopper Sassie - August 2021 to July 2022, Boston, MA

Created and updated a knowledge database for application issues using PHP and SQL Identified and leveraged new technologies to enhance service offerings Managed multiple IT software projects, ensuring effective resource and team coordination Collaborated on project integration and implementation, focusing on thorough testing Stayed abreast of web development trends to inform IT strategies
